

Fueling great teaching with
the power of educational
video.

The Boclips for Teachers video platform provides teachers with the content, tools, and strategies they need to use video in the classroom safely, easily, and with maximum effectiveness. Packed with high-quality videos and an array of standards-aligned resources, our flexible platform empowers teachers to enrich lessons with video whenever, however, and wherever they see fit.

Why educators choose Boclips for Teachers:

Unbeatable content

Teachers get instant access to an extensive library of vetted, short-form videos from over 200 globally recognized content providers

Time-saving search

With content browsable by subject, age, and duration, teachers spend less time searching for, judging, and implementing video resources

Fresh & current

Our library is always growing, offering teachers a continuous stream of new content to keep students interested

Resource rich

Lesson plans, activities, teacher ratings, and suggested classroom usages provide teachers guidance while maximizing teacher choice

Vetted & teacher-curated

Our content is educationally relevant, curated to support learning standards, and vetted for accuracy and quality

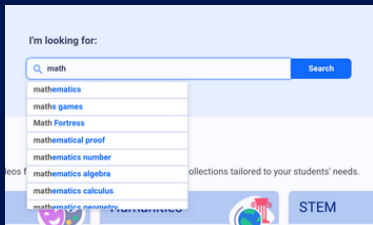

Flexible & adaptable

Platform supports differentiated instruction, flipped classrooms, blended learning, and other teaching methodologies

“I love being able to quickly find quality clips that fit right into what I'm teaching. Often it's the video that gels the concept.”

—Boclips teacher

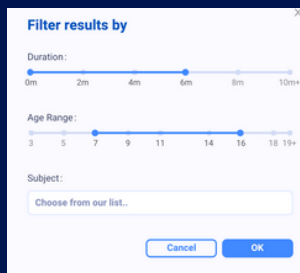

Just a few of the things teachers can do in Boclips for Teachers:

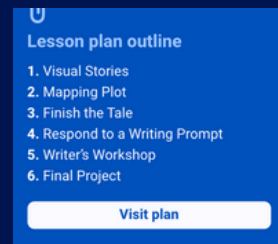

Search for subject-specific videos

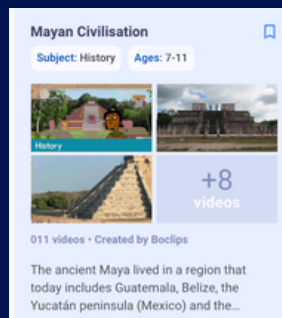

Browse video collections by subject to find content suitable to students' needs

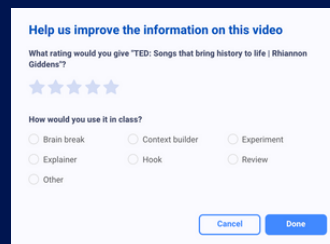

Filter results based on grade, duration, and subject

Use self-paced lesson plans matched to academic standards

Create and bookmark customized video collections

Rate videos and recommend how to use them

The world's largest library of short-form educational videos from 200+ premier brands—all in one place.
